

September 9, 2021

Dear Fellow Shareholders:

Over the past several years, Irma Velazquez, the Company's Chief Operating Officer, and I have worked to get Energy and Water Development Corp. (the "Company") into its current position of having the ability and resources to manufacture quality products and to meet the demand of the Company's growing customer base. We have contracted with both governmental entities and with private customers to provide environmentally friendly and sustainable methods of producing and purifying water and generating energy and have partnered with key players in the industry to manufacture the equipment.

That being said, however, the Company has not escaped the complications experienced by the entire world due to COVID-19 and, because of pandemic-related delays with its previous auditors, in June of this year, the Company announced that it had engaged WithumSmith+Brown, PC ("Withum") as the Company's new independent registered public accounting firm for the fiscal year ending December 31, 2020 and its 2021 quarterly reviews.

We acknowledge that the Company has recently been given a "stop" symbol warning on the OTC Markets website and that this may cause concern for our shareholders. The OTC Markets "stop" symbol designation means that a company is "not able or willing to provide current disclosure to the public markets" and, in the Company's case, is directly related to the fact that the Company has not yet filed its Annual Report on Form 10-K for the year ended December 31, 2020 or its quarterly reports on Form 10-Q for the quarters ended March 31, 2021 and June 30, 2021. Please be assured that Withum is working diligently to complete its review of the Company's financials for fiscal year 2020 and management is committed to doing everything in our power to file the Form 10-K and the subsequent Form 10-Qs before the end of this month.

We are encouraged by the increased interest the Company has received in its products and we are confident that the Company will continue to grow and thrive despite these setbacks. We appreciate your support and look forward to a brighter future.

Sincerely,

Ralph M. Hofmeier  
Chief Executive Officer and Chairman of the Board of Directors
